SARMC was formed in February, 1983 & incorporated as a nonprofit organization in December, 1997. We are a family-oriented, social club that enjoys doing shows with modular displays. The Club does not charge for shows but gratefully accepts honorariums and donations. **This is for the fun of it**, as well as giving those who love to run trains, but may not have the room at home, the opportunity to do so. The Club also sponsors workshops, how-to clinics & shares railroad related information & trivia.

HO Division (Charter Division, 1983) – (1:87) - Does around 8-10 shows a year including Regional Worlds Greatest Hobby Shows, National Train Day at the Toledo Amtrak Station & Santa in Swanton, among others. Our current layout's minimum size is 8' wide by 12' long.

O Division (Lionel, 1984) – (1:48) - Does some 6 - 8 shows a year, including National Train Day, the Toledo Zoo "Lights Before Christmas" & Wildwood Manor House, Sauder Village & county fairs.

N Division – (1996; 1:160) - Operates on a self-contained display that can be wheeled into a show & setup & running in under 15 minutes. Runs at shows along with others but also independently.

L Division (LEGO Division, 2018) - Built using Legos. Everything is Lego except the tables that the display sits on. Runs at shows along with others but also independently. Still "gathering strength & gaining speed." Interested?

Membership dues are \$25.00 per year (per FAMILY)  
(Make Checks payable to Swanton Area Railroad and Model Club, Inc. (**SARMC**)).

Our meetings are **usually\*** at the Swanton Village Council Chambers located at 219 Chestnut Street.  
(located next door to the Police Station) on the first Friday of every month at 8:00 PM

**\*check the website or FB for schedule changes**
